Hongkons, July 3nd, 1890.

THE Waterworks Bill, as amended by the - Special Committee to which it was referred, contains various improvements on the Bill as read a first time. These were stated at length by the Attorney General at the meeting of the Legislative Council on Monday, and they will probably commend thanselves to the approval of the members of Council who were not on the Special Committee. We observe with regret, however, that the definition of the Water Authority temains as before, namely: -"The Resident Engineer She, or body corporate as the Governor in Council may from time to time appoint to manage or supervise the waterworks or water supply of this Colony." The latter destination is Hankow, 700 miles up the Yangpart of this definition is put in merely for the sake of appearance. The intention is that Mr. Coopen shall be the Water Authority, and that he shall have full and entire control. It is true the words "subject to the general authority of the Givernor" have been introduced, but that is simply an empty form. What is wanted is that the Water Authority shall be subject to the control of the ratepayers through their representatives on the Sanitary Board. The Sanitary Board itself, unfortunately, has not shown itself solicitous on this point, and when the Bill was referred to it consideration returned it out any recommendation that the Board should be constituted the Water Authority." We trust, however, the measure will not, be

secure its amendment in this respect. At the annual meeting of the Hongkong General Chamber of Commerce in 1886 the Hom. A. P. MACKWEN, who did not then possess a seat in the Legislative Council, made some remarks on the subject of sanita--ion, explaining that his only excuse for doing so was that the meeting of the Chamber of Commerce was the only opportunity a member of the public had of drawing official attention to matters which are of municipal interest in this Colony. At that time the Sanitary Board had not been reformed by the introduction of the elective element and the conduct of its business in public instead of with closed doors; and it was against that body that Mr. MACEWEN directed his attack. In the course of his remarks he said-"The Surveyor-General's department ought to be subservient to the Board, and therefore I cannot possibly see how the Surveyor-General can retain a seat on that Board." What we now propose is that the Water Department, which has been separated from the Surveyor-General's Department, should be made subservient to the Sanitary Board. At the meeting in question Mr. MACEWEN was supported by Mr. J. J. FRANCIS, Q.C., who said - # It seems to me that the only possible object with which the

## FOOCHOW.

Through carelessness one of the cargo boats of Mesura. F. H. England & Co. was burnt on the 25th June. The fire originated in the cook house, and fortunately there was no tea on board. Luckily the fire was extinguished before any serious damage was done to the hull.

The recent floods were far severer than thous reported a fortnight ago. On the 20th, 21st, 22nd and 23rd June the street on the river side, where most of the merchants business premises are situated, was, at high tide, waist deep in water & Of course all business was at a stand still. The river stream was exceedingly rapid so much so, that there was practically no flood tide. A barque which arrived on the 21st June at Sharp, Peak had to remain at anchor there three days before she could get to the Pageda Anchorage. The water was over the bridge. It is twelve years since Foodhow has been visited with such heavy floods.

We regret to learn that owing to the late flood the once prosperous rice crop is now a dead loss to farmers, and we are informed not ven one third of the crop will be collected. The second crop, which was planted a fortnight later than the first is totally destroyed. Such a state of things in these hard times, together with the scarcity of the grain, is indeed a hard case for the natives, and we hope H. E. the Vicercy will not delay in putting his hands to the matter and doing all in his power to save the people from despair. Energy and good will towards the penple are what are really needed, and we presume H. E. bas ample means at his disposal.—Echo.

A recommendation was made that Mr. Colquhous should be remanded to his former position in the Public Works Department, the Government of India considering that the justifiable punishment of summary dismissal should not be enforced, on the plea that Mr. Colquboun had on many occasions exhibited energy and

The Secretary of State agreed with the decision of the Government, although he was in favour of Mr. Colqubous's instant dismissal. Mr. Colquhoun in his defence pleaded that his letter was a strictly private one, written to a friend from whom he was asking legal advice, and that it was not intended for journalistic purposes. He declares that a libelious attack was made upon him by a Mandalay paper, nocusing him of being responsible for the death of Lieuteusht Nugent, and that it was necessary that Mr. Moylan should sen the private correspondince between the Chief Commissioner and himself. Mr. Colquhonin solemnly repeats that the Government has totally misunderstood his position in connection with Mr. Moylan. Finally, he asked that his case may be reconsidered, that he may be regazetted to be Deputy Commissioner. or allowed to retire ou a special pension.

It should be stated that Mr. Colquboun was suspended during the consideration of his case. and that permission to retire to England on leave was denied him.

Finally, in a letter flated 4th March, 1890, from the Government, the decision arrived at is confirmed and the opinion repeated that Mr. Co quhoun's action was characterised by disloyalty and insubordination to the Chief Commissioner. CALCUTTA, 19th June.

A Bombay paper publishes a private letter from Sir Charles Crosthwoits to Mr. Archiblald Colouboun, dated the 29th February, 1838, with reference to an article which Mr. Colquitonn' had written on the subject of a Justial Commissioner for Upper Burmah: Bir Charles Mining-Crostiwaite deprecates the line of argument taken in the article as likely to do mischief; and, concludes by suggesting that the writer should show how, if the authority of the Deputy Commissioner was interfered with, or if his orders were subject to be upset by adistant, and almost impersonal court, the settlement or pacification of the country must be delayed and expenditure vastly increased. The letter goes on to say :-'I would not say a word about a Judicial Commissioner. Talk of a Court and let your agguments tell against a Judicial Commissioner, as much as a thief Court. I think if you take this line and make no reference to me at all or to my opinions or views, there will be no harm but good. I should say as little about a court as possible, and nothing about Moylan's Trust & Loan Co. ... outsies directly or indirectly, but I would Do., Founders ..... explain the nature of the present system, and Watson & Co. A. S. work it up as supporting that personal government which is the only form the country can bear at present.

With reference to the above letter, the Eng-Lishmon states that the article in question was presed upon Sir Charles Crosthwaite as a peace. offering after Mr. Colquhoun had been brought New Malwa to book a second time. As a matter of fact Sir Charles Crosthwaite never used the article or allowed it to pass out of his possession, and in upite of his caution it was spoiled by violent personal abuse of Mr. Moylan. NOW ON SALE. IMPERIAL QUARTO. NGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARIN

PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous obof foreign relations has imposed upor them, here given in entenso. Each and every word in fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best Orders in Connoil for Government of H.B.M. principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type cc. and in the size Rules of H.B.M. Supreme and other Courts of body, thereby effecting a vast sconomy of space, achieving a clearness not previously attained, and dispensing with those vest margins

and vacant spaces which have heretolore characterised Chinese publications. To illustrate the vast scope of the work the following fasts are submitted for consideration: Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medharst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and apwards of 600,000 Chinese characters. Again despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various appli-cations and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as

many as any other Dictionary hitherto pub-For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. Inthisrespect the work will be found indispensible to all Europeans residing in China, and to the mutives themselves it explains subjects fully with which To parties resident in England and interested in China it cannot but be invaluable occasion-

It comprises upwards of two thousand large 4 Vols. IMPERIAL QUARTO, Price, \$20. A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies.
